PREFACE

TO

CALENDAR of PRE-REFORMATION WILLS, TESTAMENTS, &c.,

at the Probate Office, Bury St. Edmunds.

Wills provide an abundance of material for both the historian and the genealogist to continue their researches. The historian will find in the wills much to direct his interest in the social welfare and condition of various classes of society existing at different periods in the country's history: the genealogist will readily discover many traces denoting the rapid rise or decadence of county families. But to use to advantage the information which wills provide, it is necessary that easy access should be possible to any one of them by the existence of an index. A valuable calendar of the early wills (1444—1600), registered in the Ipswich Probate Court Office, has long since been published by F. A. Crisp, Esq., F.S.A., and members of the Suffolk Institute of Archæology are now greatly indebted to Mr. Crisp for the free gift of a manuscript calendar of the early wills registered at the Bury S. Edmunds Probate Court Office, which he caused to be compiled at his own expense. The value of the publication of the latter calendar is increased by the fact that there is, at present, not even an official index to the wills. "Tabulæ," written in the 16th century, have been added to two or three of the Registers of wills, but they would be of little practical use, unless the searcher had plenty of time at his disposal. The first Secretary of our Institute, Samuel Tymms, F.S.A., gave the public some idea of the interesting information contained in the early Bury Wills, by the publication of forty-six selected wills

ranging from the year 1370 to the year 1639.* Reference to these wills has been frequently made by Hallam and other historians. Tymms also published in the first volume of the Proceedings of our Institute six wills, one of which is the will of John Gardiner,† the father of Bishop Stephen Gardiner. In the library of the British Museum may be seen various extracts made by the Suffolk antiquary, Simon D'Ewes, in 1633, from the wills at Bury (1354—1560),‡ but beyond the efforts of Mr. Tymms no attempts have been made to acquaint the public with the general character of the documents to be found in the Probate Court at Bury S. Edmunds.

The earliest original wills at Bury are dated 1527, but are not continuous before the year 1533; the oldest register of wills commences with the year 1354. The first two registers are written on parchment, and are bound between two thick boards covered with skin. The size of the volumes is 12 in. by 8 in., their thickness is $2\frac{1}{4}$ in. They close with a modern clasp. Many leaves of an old liturgy are bound up in the volume marked 1 *a*. This fact seems to denote that the volumes were re-bound at a date subsequent to the dispersal of the works which comprised the library of Bury Abbey. The first volume (1354—1442), appears to be written in one handwriting as far as folio 239, and is, probably, the writing of one Peter Werketon. Letters for the administration of the goods of Peter Werketon, 31st July, 1439, appear on folio 239 of Book 1. On folio 218*a* is a note by P. Werketon to the effect that he had compared the registration of the will of Helena Brawood with the original and found it correct. To an erasure made, folio 218*b*, the following note is added :—

"De facto mandato dompni Archidiaconi ex certis causis justis ipsum moventibus cancellatur et raditur per Werketon."

* Publication of the Camden Society. Old Series. No 49.

† Volume vi. fol. 196.

‡ Collectanea selecta ex variis Registris sive Libris MSS. Testamentorum sive Voluntarum irrotulatoriis, tam vetustis quam recentioribus, remanentibus in Curia Dompni Archidiaconi Sudburiansis in comitatu Suff. A.D. 1633. Harl. MS. 639, fol. 121.

Werketon writes on fol. 50: "scrutetur testamentum Johannis Caxston." From an examination of Caxston's will, the conclusion may be drawn that the many bequests made therein were at one time liable to be disputed, for it enumerates several grants to pilgrims in addition to the enormous sum of £60 to be distributed at the discretion of Caxston's executors among the prisoners in the gaol, and among other poor people, not vagabonds, but well-known to be in need (non extra vagantibus sed probabiliter notorie indigentibus).

The third volume of Bury Wills (1482—1517) is that which bears the official number, Book v., and which Tymms mentions as Liber Bonor. The first will, however, is that of Peter Glaunvylle. Books vi., vii., and viii. also contain the registration of Bury Wills; and a few Bury Wills, dated before 1538, are to be found in Book x. The probates to these wills were granted by the Sacristan of Bury Abbey: a complete list of the sacristans (1355—1535) may be obtained from the Calendar. The probates of the wills of burgesses and inhabitants of Bury belonged to the Abbot of Bury, and from numerous and various entries (see Book i., fol. 4, 6, 7, 17, 19, 21, 45, 93, 134, 247) it appears that the Abbot had jurisdiction over the administration of goods, and the probates of wills of any strangers dying within the town. Thus we find that probates of the wills of inhabitants of St. Albans, Norwich, Ipswich, Cambridge, Sawtre, Soworth, Torneston, and other remote towns are entered in the registers.

By custom, also, the probates of wills of burgesses belong to the mayor of some boroughs; yet, as to personal property, the will must be proved before the ordinary. The earliest registration of a Suffolk will so recorded is in the Ipswich Great Court Roll for 10th July, 1280; the Court Rolls for subsequent years also contain frequent registrations of probates. The entries of forty wills upon the Court Roll for 1349 mark the havoc caused by the Black Death in Ipswich. The oldest wills relating to Bury which are recorded, date further back than the year 1280.

A most interesting paper on these wills was published by the late Lord John Hervey, in volume vii. p. 217 of the Proceedings of the Suffolk Institute of Archæology. The wills are those of Theodred, Bishop of London, formerly Bishop of Hoxne, before the year 955 ; of Alfgar, Alderman of Essex, who died in 951 ; and the wills of Alfgar's sisters, Althelfleda and Elfleda.

The wills now at Bury, include those proved before the Commissary of Bury St. Edmunds, and the wills of the Registry of the Archdeacon of Sudbury. A return, made 23rd February, 1828, from the Archdeaconry of Sudbury to the House of Commons under Mr. Hume's Motion, states the dates of the earliest wills in that Registry ; the period at which there occurs a regular series of original wills and recorded copies of Administrations ; Bonds and Inventories ; of Acts-Books of Probates and Administrations ; and of Indexes to the Records, together with a statement of any occasional chasms that may occur in, and an accurate detail of the state and condition of the said records as follows :—

Original Wills—Files 1533, 1535, 1539, 1543—1545 inclusive, 1550—1561 inclusive, 1563, 1564, 1568, 1569, 1570, 1572, 1573, 1574, 1575, 1577—1586 inclusive, 1588, 1589, 1591—1595 inclusive, 1597, 1598, 1600—1652 inclusive. A chasm during the Commonwealth, and 1660 inclusive, to the present time.

Register Books of Wills—From 1439—1652, a chasm from that time to 1660 ; and from 1660 inclusive, to the present time.

Indexes—From 1520 to the present time bound up separately from the Register Books.

Administration Bonds—From 1660, 1661, 1664—1669 inclusive, 1671—1726 and 1728 to the present time.

Books of Acts—From 1577 to 1593 both inclusive, from 1605—1612 both inclusive, from 1630—1652 both inclusive and from 1660 to the present time.

Inventories—From 1576 to the present time (very irregular)

The above records are (almost all of them) in a very good state of preservation.

The Registers of the latter wills commence, as stated, in the year 1439, but there is within the volume, on a

piece of loose paper, the will of John Benett, of Thornham Magna, 14th Dec., 1434. The register was begun, as the introduction informs us, by William Thweyts, commissary in the time of Magister Clement Denston, B.D., Archdeacon of Sudbury, and Magister Henry Sythyng, his official; then in the time of Magister John Wygenhale, Archdeacon and Magister Robert Spylman, his official; then in the time of Magister John Selot, D.D., Archdeacon and Magister William Doode, his official; thereafter of Magister John Crofte, B.D., his official; then of Magister John Ramsey, B.D., his official; and now (the year of writing) of Magister William Suffield, B.D., his official. This introduction, together with the fact that entries of registration are not in a chronological order according to the dates given in the various probates, seems to imply that Thweyts had the laborious task of writing the registration copies of the wills included in Book II. at one and the same time from the originals now lost. William Thweyts may have been a relative of the William Thweyts an inmate of Eye Priory in 1492. Book II., and the other books containing the registration of Sudbury Wills, consist of paper folios bound up between limp parchment covers. The writing is very close and cramped in style, and is extremely difficult to decipher. The volume marked II. is in size 13 ins. by 10 ins., and in thickness 5 ins. Book III. is similar to Book II. Simon D'Ewes gives extracts from the wills of Henry Irby, sacerdos, 2 Ap., 1484, and Thomas Fodryngly de Brokle, 20 Dec., 1490, from a book "Herdman" (folios 17, 156), now not available.* With such a heavy task set before William Thweyts it is not to be wondered at that occasionally clerical errors occur which are very palpable; *e.g.*, the date of the probate of a will is at times given as one prior to the date of the will, and the name of the testator at times varies.

A large majority of the wills given in the books which are calendared, are written in Latin. In order

* Harl. MS, 639, fo. 122.

that the reader may distinguish the Latin from the English wills, the word "*de*" has been used in the former case, and "*of*" in the latter.

The absence of a name from this Calendar does not signify that no register of the will of a person was made; it may be the will has been registered in the Prerogative Court of Canterbury, or in the Bishop's Registry at Norwich. Should the person have been resident in Moulton, Freckenham, Hadleigh, or similar parishes known as "peculiars," because exempt from the jurisdiction of the Bishop of Norwich, search must be made for the will at Somerset House; or, as I am informed by Mr. J. R. Hutchinson, at Peterborough, if the testator had dwelt at Moulton.

The Deanery of Bocking, belonging to his Grace the Archbishop of Canterbury, embraces six parishes, of these Hadleigh and Monks Eleigh are in Suffolk; it had a register office in Doctors' Commons. Freckenham was a peculiar belonging to the Bishop of Rochester, its wills and records were deposited in the private dwelling-house of the Registrar at Huntingdon, within the diocese of Ely. Tannington with Brundish was also a peculiar of the diocese of Rochester.

There is, however, another reason why a will may not be found when search may be made for it at Bury. This reason is given by the Registrar, Alexander Mather, on page 145. He complains that fourteen folios at the end of Book IV. had been cut out therefrom before he was appointed Registrar. It will be noticed that in many instances probate of a will appears to have been granted with unseemly haste; in some cases when the testator had not been dead for more than one day.

In the earlier books the registrars have taken careful notice of the difference between a will and a testament. The latter is written in the third person, while wills are given in the actual words of the testator. Testaments are more frequently registered than wills. The distinction marked between wills and testaments has been noted in

the calendar by the letters "*t*" and "*w.*" It is easily understood why, in course of time, wills begin to be written in English. The first English will is that of Jone Heryng of Bury, 1419. From such wills, words and phrases, now unfamiliar, may be collected; e.g., "*skarly*" for insufficiently; "*spede*" for prosper, as in the phrase "my soul to spede"; "*grome child*" for manchild; "on lyve" for living; "ele" for aisle; "*fer and flett*" for ingress and egress; "*hosen of blanket*" for flannel stockings; "*so motyd be*" for so mote it be; "*service of howsling*" for the Holy Communion Service. In one case only the probate of a will is registered, because, the will having been drawn up in a plague stricken house, the officials considered it wise to avoid the risk of infection by not requiring the production of the will. Where, however, a person died intestate, a grant for the administration of the goods of the deceased is registered; such an entry is notified in the calendar by the word (Admon.). After the year 1535, notices of the grants of letters of administration are to be found in the Acta or Memoranda Books, which books also contain information as to the granting of marriage licences. A few notices of marriages* are to be found in the registers of early wills and have been duly calendared. The Acta Books at the Bury Probate Court commence with the year 1577, but the first of them unfortunately has no index. It contains quaint notices as to the granting of licences to teach, to practice the art of surgery, and to act as midwife. In the registers there are but few entries of the Inventory of goods to be administered, the most interesting of these entries have been published by Tymms.

I have sought to make the Calendar as useful as possible, by adding, not only the name and place of residence of the testator together with the date of will and probate, but also his profession or calling; various readings of the spelling of his name; and his *alias*: in several instances the names of his relatives have been added.

* p. 40.

I have already used many notes referring to the testators' connections with the religious and social gilds of their parishes in my recent paper on "Certificates of Suffolk Chantries and Gilds;" * it is the want of space which compels me to omit to record the many interesting facts contained in the wills, which throw light upon the history of Suffolk manors and Suffolk industries.

The Calendar, which refers to all wills, testaments, probates, and letters of administration registered in West Suffolk before the Reformation, has been desired by many for a long time; it is only myself, as compiler, who can fully realize the immensity of the task which has caused the delay in its publication. The index to the Calendar has been a great tax upon my leisure moments, and I hope that the reader will generously excuse any of the errors which may be found in a work produced under such circumstances.

In conclusion I desire to thank F. A. Crisp, Esq., for the practical sympathy and encouragement which he has given me, also E. A. Southey, Esq., Registrar of the Bury Probate Court, and his colleagues, Mr. W. Goodchild and Mr. J. Steele, for the numerous acts of courtesy and kindness bestowed upon me when at work in their office.
